Log 202, 5rue Albert Thomas, 38100
Grenoble, France.

Overview

- Built from stainless steel, the frame provides excellent durability, corrosion resistance, and long-term performance in diverse settings.
- Snap-on modules can be quickly attached to the frame and removed with an insertion tool, allowing for flexible installation and easy maintenance.
- Cable rings integrated into the design safeguard LSA modules and wire connections against physical damage, boosting the overall reliability of the network.
- The back-mount frame streamlines the installation process, facilitating faster deployment of LSA modules.

Applications

- Telecommunication Networks
- Data Centers
- Building Infrastructure & Industrial Facilities
